Thank you for allowing public comment on Project 3018093 at 9666 51st Ave S. Please hold a public meeting to review the environmental and landuse issues of the proposed clear-cutting of a large wooded lot bordering Kubota Gardens.

Seattle is rapidly destroying it's environment. We are removing small, single family homes that have yards with gardens and trees and replacing them with boxes that are built out to the legal size limit. Worse, we are destroying clusters of such houses and replacing them with huge apartment complexes. This must stop if we are to preserve the livability and sustainability of our city.

The wooded lot in question is an important part of the greater Kubota Gardens ecosystem and should be preserved.
